

APC Back-UPS Pro 1500VA with sinewave

The new APC Back-UPS Pro models provide premium battery backup and surge protection. Ideal for home or small office electronics, networking devices, gaming PCs and consoles. APC Back-UPS Pro models provide sinewave output, USB charging ports for your mobile devices, and increased runtime for your critical electronics.

A UPS for Every SmartHome

Every connected SmartHome needs a UPS to help keep your wifi on and available, so that your SmartHome stays, well - smart!

Where to use an APC Back-UPS Pro BR Series UPS

At your Desk

Give yourself the time to save documents and gracefully shut down your computer without the harsh impact on your electronics of sudden power loss

Gaming System

A sinewave UPS is ideal for high-end gaming PC's, Xbox and PS4 Consoles, and connected hard drives. Keep streaming and gaming when the lights go out

Wireless Router & IOT Devices

If the power goes out, stay connected to the internet and keep wifi-connected smarthome devices working by connecting your modem/wifi router to a UPS

Television and Cablebox/DVR

Don't lose your DVR recordings when the power flickers. A connected cable/satellite box will continue recording, even when the house is dark

Audible alarms	<i>Provides notification of changing utility power and UPS power conditions</i>
Automatic self-test	<i>Periodic battery self-test ensures early detection of a battery that needs to be replaced.</i>
Battery replacement without tools	<i>Enables fast battery replacement, lowering Mean Time to Repair (MTTR).</i>
Boost and Trim Automatic Voltage Regulation (AVR)	<i>Eliminates voltage fluctuations as a source of AV signal degradation and component power-supply stress.</i>
Building Wiring Fault Indicator	<i>This LED informs users of potentially dangerous wiring problems in the wall circuit.</i>

Catastrophic Event Protection	<i>SurgeArrest components such as MOVs and Thermal fuse ensure instantaneous reaction to lightning strikes and wiring faults. If the surge components are damaged due to power spike or over voltage, excess power cannot reach your equipment. Unlike the APC SurgeArrest products, most surge suppressors continue to let power through even after circuits have been damaged, leaving your equipment exposed to other damaging surges.</i>
Dataline surge protection	<i>Provides protection of connected equipment from power surges on the data lines.</i>
EMI and RFI noise filtering	<i>Reduces line noise that can cause data loss and keyboard errors.</i>
ENERGY STAR for UPS	<i>Establishes that the efficiency of the UPS is in the top 25% of the market as verified by third party testing</i>
Hot-swappable batteries	<i>Ensures clean, uninterrupted power to protected equipment while batteries are being replaced</i>
LCD graphics display	<i>Text and mimic diagrams that display modes of operation, system parameters and alarms.</i>
Lifetime data recovery warranty	<i>Provides peace of mind by providing professional data recovery services in the event data is lost due to the failure of the unit.</i>
PowerChute Personal Edition OS Compatibility	<i>This software supports numerous operating systems and processors.</i>
RoHS	<i>Certifies that electronic devices don't contain hazardous metals and flame retardants</i>
Sine wave output	<i>Eliminates humming and heat generated when powering tubelights and fans.</i>
USB charging ports	<i>Simultaneously charge mobile devices, including smartphones and tablets.</i>
